

Cloud Dough

Supplies:

- **Medium sized bowl**
- **Spoon**
- **Food coloring (optional)**
- **1 cup of cornstarch**
- **½ cup of conditioner**

This recipe makes enough dough for one person!

STEPS

1. Gather all of your supplies on a clean surface.
2. Put the conditioner in the bowl as well as 2-3 drops of food coloring (or more depending on how dark you want it) and mix it with the spoon.
3. Once it is all mixed slowly add half of the cornstarch. Mix it with the spoon and try to smooth out any lumps.
4. Add the rest of the cornstarch. Start mixing with the spoon and once it gets really thick, use your hands to mix and knead the dough.
5. Have fun with your homemade cloud dough!
