

# Q-TIP SKELETON

Supplies

• **18 Q-tips**

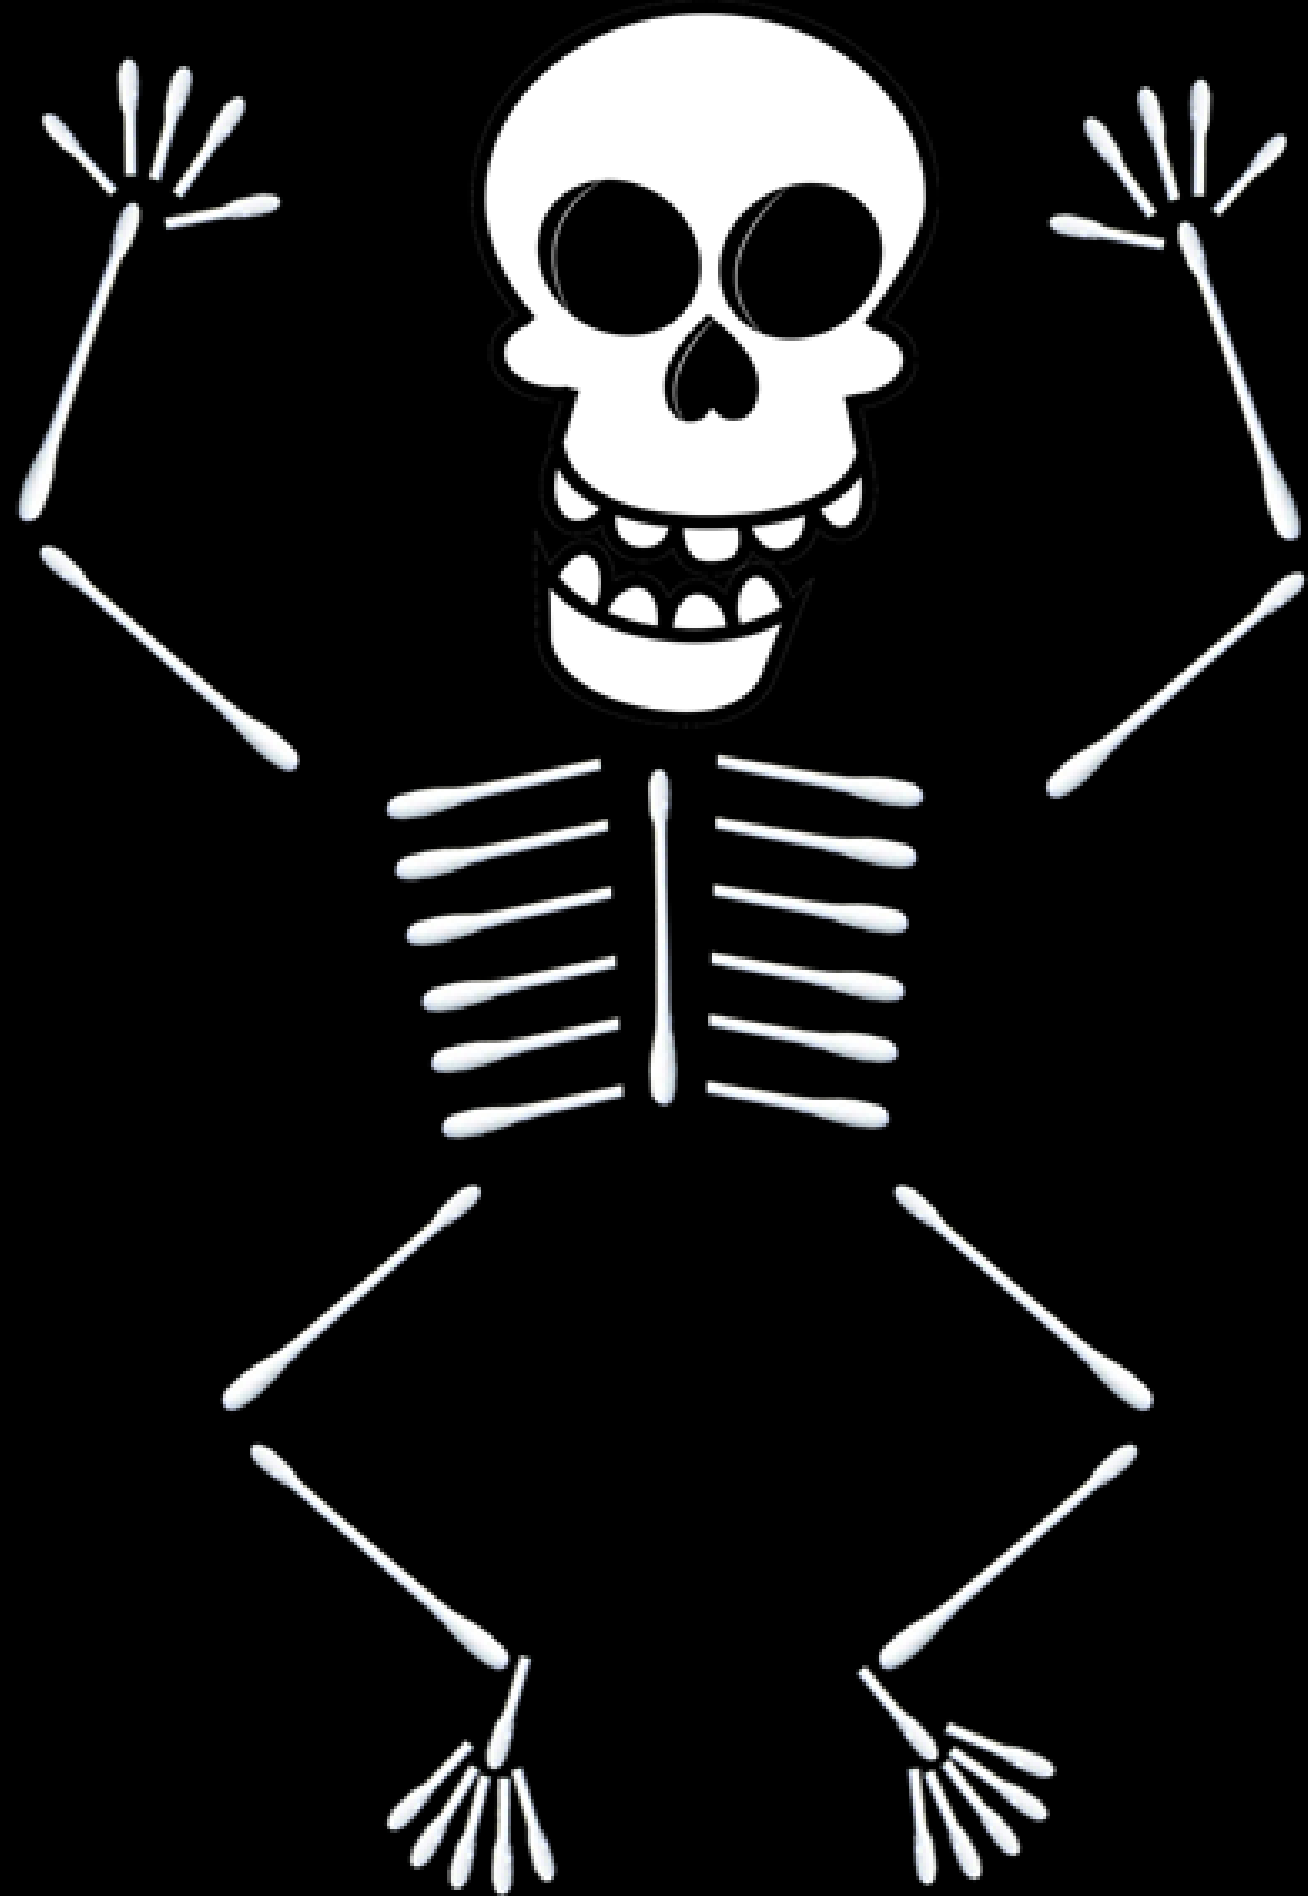

• **Black cardstock or construction paper**

• **White paper**

• **Black marker**

• **Scissors**

• **White glue**

Begin by gluing 6 whole Q-tips on the black cardstock for the skeleton's ribs.

Glue 1 Q-tip perpendicular over the ribs to act as the backbone. Have the Q-tip lie flush with the last rib, but poke up longer than the top rib, to act as the neck bone.

Draw a skull on the white paper with a black marker, and cut it out.

Glue the skull on the paper above and touching the neck bone

Glue 4 whole Q-tips for the arm joints and leg joints,

Cut 6 whole Q-tips in half, or make them even shorter if you like. These are smaller bones that can be used as the 10 fingers, and 2 to be the feet. Glue them in place.

Hang on your front door for the Trick-or-Treaters!
